# Press Secretary Report 2026

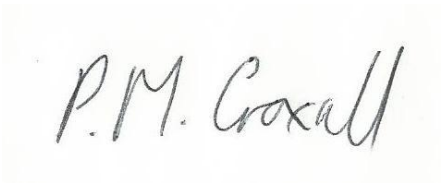

Since our change of webhosting, the website is functioning as expected, but emails occasionally have issues, as sometimes we are unable to send. But try again a few minutes later, and the email is sent. Unfortunately, the change of email hosting has not reduced the amount of spam. This is being constantly monitored.

The Club website has been updated on a frequent basis, but nothing new has been added.

The results of the galas have been continually added once the results were known. A post on X (nee Twitter) and Facebook was done to highlight the results.

We still don't have any sponsors for the website, and I must admit, I haven't been proactive on that front. Sorry.

Since the last AGM there have been 10 newsletters published, and the new feature from our Head Coach with his Coaching Tips has dried up. Plus, we have had reports submitted of swimmers doing non-club related things.

Philip Croxall

Press Secretary
Colne ASC
